Dear Warner Parent,

I take this opportunity to introduce myself and make you aware of the Career Counseling Services available to your young adult at Warner University. I am here to assist students in identifying majors in their desired career fields and to help them discover God’s plan for their future.

There are some excellent resources to help students in the career exploration process. These resources include:

  - A 4 year plan for picking a major, deciding on a career, and pursuing a job after graduation
  - Monthly newsletters with upcoming events and job postings
  - A link to [www.myplan.com](http://www.myplan.com), a site where students gain clarity in choosing a career path by taking assessments in the areas of personality, skills, interest, and values
  - Links to many other useful resources, websites, and career documents
  - A link to College Central Network, [www.collegecentral.com\warner](http://www.collegecentral.com\warner), Warner’s exclusive online job board that provides both students and alumni with the ability to search available jobs and internships. Students can build and upload résumés and portfolios for employers to view.
- Moodle also has a Career Counseling Page
- Follow me on Twitter- moyer_autumn
- “Like” the Warner Career Counseling Facebook page
- Seminars on topics such as résumé writing, interviewing skills, professional dress, graduate school admissions, etiquette, and the impacts of social media.
- Job Fairs, on and off campus

If I can be of any assistance please contact me by email at autumn.moyer@warner.edu, or by phone at 638-7654. Please remember, I can only share about career opportunities and not discuss specifics regarding your young adult without their permission.

Sincerely,

Mrs. Autumn Moyer, Director of Career Counseling
